

MS HOOFCLEAN PROTECT

MS HoofClean Protect is a neutral hoof care product that helps to keep the skin of the hoofs clean and healthy and to protect it against infections, MS HoofClean Protect functions optimally when applied using the MS AutoHoofClean system.

- Foaming product
- Boosts skin-regeneration
- Provides good adhesion to the claw
- Skin-pH neutral
- Based on ingredients from natural extracts
- Optimized for the MS AutoHoofClean system
- Safe for cow, farmer and environment

Application

MS HoofClean Protect can be applied automatically with the MS AutoHoofClean system. The MS AutoHoofClean is an automatic hoof care system, that is a skin friendly approach to hoof care and is stress free for the cows. The MS AutoHoofClean can be placed at both milking robots and milking parlours for 24/7 automated hoof care.

The dosage of MS HoofClean Care is determined based on the degree of hoof problems (dosage can be set for low, medium and high problems).

MS AutoHoofClean is optimised for administering MS HoofClean Protect and MS HoofClean Care. The mats automatically release the product when the cows walk over the mats.
