

## NL: Veelgebruikte naaldgroottes per dier:

### Varkens:

|              |                             |
|--------------|-----------------------------|
| Biggen:      | 1,2 mm x 16 mm (18G x 5/8)  |
| Speenvarken: | 1,65 mm x 19 mm (16G x 3/4) |
| Vleesvarken: | 2,1 mm x 25 mm (14G x 1)    |
| Zeugen:      | 2,1 mm x 38 mm (14G x 1½)   |

### Rundvee:

|           |                            |
|-----------|----------------------------|
| Kalveren: | 1,2 mm x 25 mm (18G x 1)   |
| Koe:      | 2,1 mm x 38 mm (14x 1 1/2) |

### Pluimvee:

1,5 mm x 10 mm (18G x 3/8)

### IJzer injectie:

0,9 x 13 mm

## EN: Commonly used needle sizes per animal

### Pigs:

|                 |                             |
|-----------------|-----------------------------|
| Piglets:        | 1,2 mm x 16 mm (18G x 5/8)  |
| Suckling pig:   | 1,65 mm x 19 mm (16G x 3/4) |
| Fattening pigs: | 2,1 mm x 25 mm (14G x 1)    |
| Sow:            | 2,1 mm x 38 mm (14G x 1½)   |

### Cattle:

|         |                            |
|---------|----------------------------|
| Calves: | 1,2 mm x 25 mm (18G x 1)   |
| Cow:    | 2,1 mm x 38 mm (14x 1 1/2) |

### Poultry:

1,5 mm x 10 mm (18G x 3/8)

### Iron injection:

0,9 x 13 mm

## DE: Viel verwendete Nadelgrößen pro Tier:

### Schweine:

|               |                             |
|---------------|-----------------------------|
| Ferkel:       | 1,2 mm x 16 mm (18G x 5/8)  |
| Spanferkel:   | 1,65 mm x 19 mm (16G x 3/4) |
| Mastschweine: | 2,1 mm x 25 mm (14G x 1)    |
| Sauen:        | 2,1 mm x 38 mm (14G x 1½)   |

### Rindvieh:

|         |                            |
|---------|----------------------------|
| Kälber: | 1,2 mm x 25 mm (18G x 1)   |
| Kuh:    | 2,1 mm x 38 mm (14x 1 1/2) |

### Geflügel:

1,5 mm x 10 mm (18G x 3/8)

### Eisenspritze:

0,9 x 13 mm

## FR: Tailles d'aiguille couramment utilisées par animal:

### Porcs:

|                    |                             |
|--------------------|-----------------------------|
| Porcelets:         | 1,2 mm x 16 mm (18G x 5/8)  |
| Cochon de lait:    | 1,65 mm x 19 mm (16G x 3/4) |
| Porcs à l'engrais: | 2,1 mm x 25 mm (14G x 1)    |
| Truies:            | 2,1 mm x 38 mm (14G x 1½)   |

### Bovins:

|        |                            |
|--------|----------------------------|
| Veaux: | 1,2 mm x 25 mm (18G x 1)   |
| Vache: | 2,1 mm x 38 mm (14x 1 1/2) |

### Volaille:

1,5 mm x 10 mm (18G x 3/8)

### Injection de fer:

0,9 x 13 mm

## IT: Dimensioni dell'ago di uso comune per animale:

### Suini:

|                    |                             |
|--------------------|-----------------------------|
| Suineti:           | 1,2 mm x 16 mm (18G x 5/8)  |
| Lattonzoli:        | 1,65 mm x 19 mm (16G x 3/4) |
| Suini da ingrasso: | 2,1 mm x 25 mm (14G x 1)    |
