

Fixing of a SCHURR 2-brush-system for goats/calves/pigs

update: 31-7-2017

recommended installation height:
 average animal size PLUS (+) ca. 85 cm
 = installation height for upper screws

Example 1: animal size of ca. 75 cm
 => fixing point for upper screws ca. 160 cm, from floor to
 upper screws:
 75 cm animal size + 85 cm = 160 cm fixing height

Example 1: animal size of ca. 60 cm
 => fixing point for upper screws ca. 145 cm, from floor to
 upper screws:
 60 cm animal size + 85 cm = 145 cm fixing height

minimum installation height = 140 cm

*screw distance 23 cm (left/right)
 and 60 cm (up/down)*
