

VespaCatch SELECT

The first trap with
flexible selectivity

The Vétô-pharma team is proud to present our latest product
VespaCatch SELECT trap.

Selective

VespaCatch Select does not work by drowning. Exit holes allow other insects to escape.

Flexible

You can adjust the size of the holes (from 7 to 11 mm) to suit your needs, to choose your level of selectivity and target different types of hornet!

Affordable

Selective trapping finally accessible to everyone.

Selective trapping of *Vespa velutina* (Asian hornet) and *Vespa orientalis* hornets!

Use with VespaCatch attractant

Available in April 2024

Primary packaging: Individual boxes
Secondary packaging: Boxes of 18 units

Vétô-pharma helps you
in your sales:

- Active promotion at national level
- Free displays for point-of-sale
