

MS Tupoleum

Box, 5 Micro column Mesh tubes, including 1 litre MS Tupoleum, gloves

PREPARATION -before placing the tubes:

Fill the tubes preferably one night before use.

- Put on gloves. Use safety glasses.
- Place the plastic tubes upright, on the ground. CAUTION: the dye may stain the surface.
- Shake bottle with TUPOLEUM well.
- Open bottle with TUPOLEUM (child-friendly closure, instructions on cap).
- Pour the TUPOLEUM into the hole in the top of the plastic tubes. If necessary, fill with a funnel.
- Per tube 0.20 litres of Tupoleum.
- Prepare gloves for placement.

PLACEMENT - on site:

- Put on the gloves.
- Place the tube upright in the designated place or hang the tube with, for example, a tie-wrap.
- Refill: after 4 months.

CAUTION

Avoid Tupoleum on hands and/or clothes due to odour and staining. If Tupoleum gets on hands: wash hands thoroughly with plenty of water, using an exfoliating soap if available. Tupoleum on clothing: remove with plenty of water.

Handle MS Tupoleum as follows

- Store full, opened and empty containers in well-ventilated frost-free room.
- Avoid/exclude damage to packaging. Do not open packaging until intended use.
- Protect packaging against use by children and unauthorised persons during storage and transport.

Rinse and dry hands after use

Avoid eye contact. In case of eye contact rinse thoroughly with water

Do not swallow. If swallowed, consult doctor

Keep out of reach of children
