

150mm approx

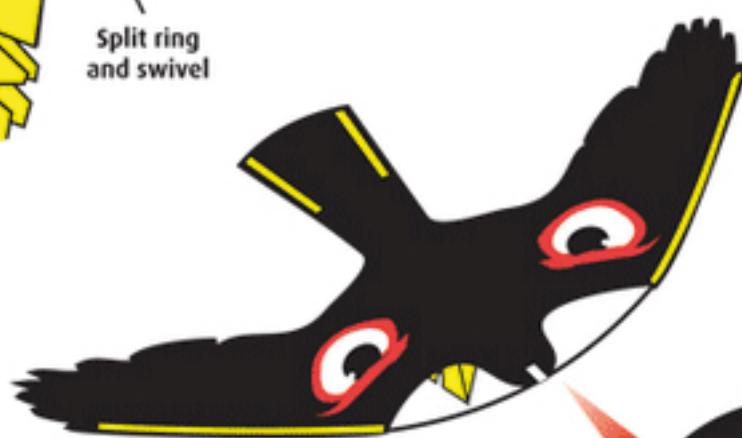

Swivel

Tie secure knot

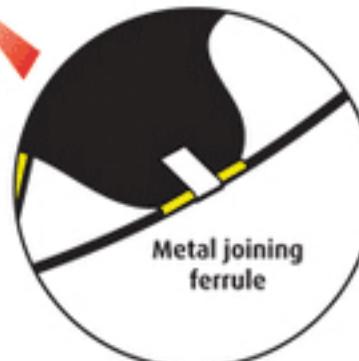

Please use the knot diagram  
(above) to ensure a secure  
fixing, double up string for  
added strength

Swivel halfway

Split ring and swivel

Assemble the kite by inserting  
rods into pockets and rubber  
connections

Metal joining  
ferrule

Connect rods through  
loop as shown

**Ground stake** - drive  
into ground to a depth  
of approximately 50cm

**Green support disc** - fits  
over around ground stake

Slide pole over ground stake

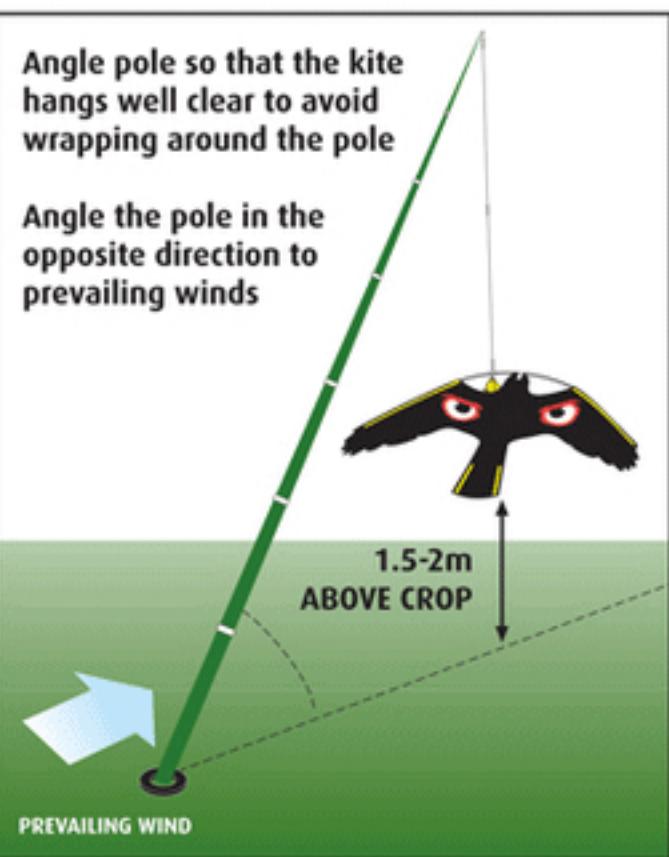

If unusually high or gusting winds  
are forecast, the kite should be  
taken down to avoid damage

#### RECOMMENDED KITE KNOT:

Kites are supplied with approximately  
2m of line - adjust the line length so the  
kite is about 1.5m - 2m above the crop.

Pull out each section of the  
7m telescopic launch pole  
and twist to lock in place

Angle pole so that the kite  
hangs well clear to avoid  
wrapping around the pole

Angle the pole in the  
opposite direction to  
prevailing winds

1.5-2m  
ABOVE CROP

PREVAILING WIND
