

Mida

SAN 335 RV

Alcohol based disinfectant

DESCRIPTION AND APPLICATION

MIDA SAN 335 RV is an alcohol based, ready-to-use disinfectant with bactericidal and yeasticidal activity, for intermediate and terminal surface disinfection in the food and beverage industry.

MIDA SAN 335 RV is safe for the treatment of surfaces which come in contact with food.

MIDA SAN 335 RV rapidly evaporates after its hygienic action and does not leave any residues. **MIDA SAN 335 RV** is therefore particularly suitable for use on wide range of surfaces such as chopping boards, water sensitive installations, conveyor systems, etc.

INSTRUCTIONS OF USE

MIDA SAN 335 RV is used without dilution, apply by trigger spraying or soaking for 5 min and let dry. Avoid aerosol formation, application in the vicinity of unprotected electrical equipment or use on hot surfaces.

PRODUCT CHARACTERISTICS

Main ingredients	Isopropanol, n-propanol
Visual aspect	Clear liquid
Colour	Colourless
Odour	Characteristic of the product
pH (100%)	6 - 9
Relative density (at 20°C)	± 0.86
Chemical oxygen demand	825.6 g/kg

The values provided in the table do not constitute technical specifications

MATERIAL COMPATIBILITY

When used according to the recommended instructions, **MIDA SAN 335 RV** can be used on materials commonly used in the food industry.

If uncertain, it is recommended to assess each individual material component individually before extended contact

ENVIRONMENT

MIDA SAN 335 RV does not contain any chlorine and hence there is no risk of the formation of organic absorbable halogens (AOX).

MIDA SAN 335 RV complies with the European Union directive EU648/2004.

SAFETY

MIDA SAN 335 RV is classified as corrosive and flammable.

Please consult the MSDS and follow the guidance for handling and disposal.

STABILITY AND STORAGE

Store the product sealed in its original packaging between 5 and 35°C and prevent any leakage of product. Do not expose to direct sunlight.

More detailed recommendations are available in the Safety section 7

PACKAGING

MIDA SAN 335 RV can be available in 1 L bottles and 5 L and 20 L canisters.

BIOCIDAL EFFICACY DATA

MIDA SAN 335 RV shows the following biocide activity:

Target organisms	Test norm	Microorganisms tested
Bacteria	EN1276 EN13697	<i>Pseudomonas aeruginosa</i> <i>Escherichia coli</i> <i>Staphylococcus aureus</i> <i>Enterococcus hirae</i>
Yeasts	EN1650 EN13697	<i>Candida albicans</i>
