

**Step 1.** Take pump  
+ suction set

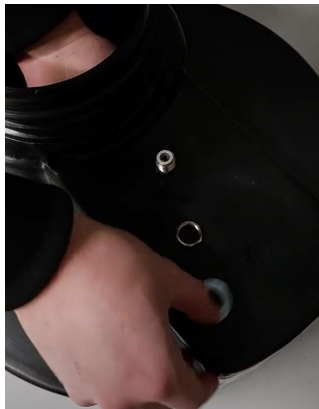

**Step 2.** Mark the hole on the  
desired place

**Step 3.** Drill a hole in the tank  
(8 or 16 mm)

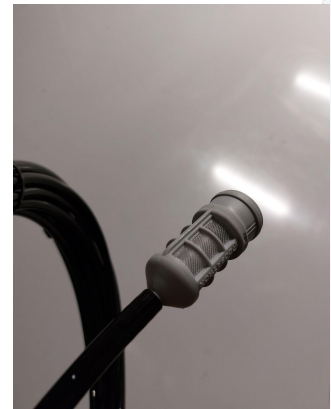

**Step 4.** Screw connect  
the suction set

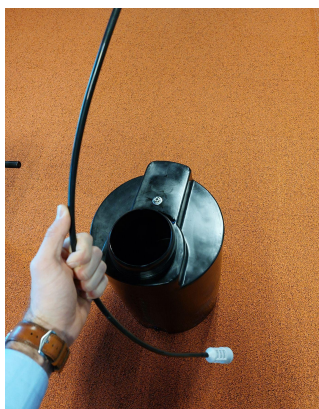

**Step 5.** Measure length  
inside the tank + length  
from tank to the pump

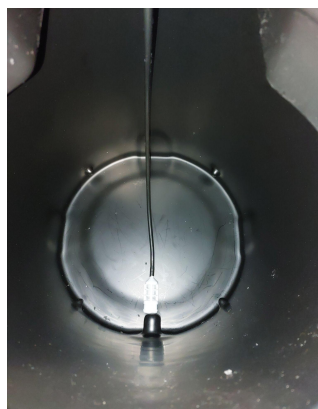

**Step 6.** Connect standard  
Dosatron filter

**Step 7.** Install hose inside  
the can

**Step 8.** Check if the hose  
has the correct length

**Step 9.** Connect hose  
to the pump
